

Last Meeting - Anita Oliver - Rotary Exchange to Italy

Last year the RCOL sponsored Anita on her exchange to Italy & she reported back to us at our last meeting.

Anita described her exchange as the “best experience of her life” – while she missed her family during the first few months she was away, she got to experience 5 different host families & undertake 2 tours – one of Southern Italy & the other to Rome.

She described her High School experience as very different to here – students attend school 6 days a week from 8am to 1pm!

Anita was lucky to finish her exchange only a few weeks before the Caronavirus outbreak in Italy – she said that as Italians are very social people, they would have found staying at home extremely difficult!

Thanks Anita for tackling the challenge of presenting to us via Zoom, it was great to get your feedback about your Student Exchange experience.

Anzac Day Apology!

(the Bulletin was so big last meeting that the Bulletin Editor omitted to acknowledge the Club's contribution to Anzac Day celebrations - thanks Ras!)

BONES

There are four main **BONES** in every organisation.

There are the **WISHBONES** - we wish those folk would do something,

There are the **JAWBONES** - They do all the talking but nothing much else,

Then there are the **KNUCKLEBONES** - They sit back and knock everything,

And finally there are the **BACKBONES** - They carry the brunt of the load and do most of the work.

Which BONE are you?

Update from our President

Another uneventful fortnight has gone by for most of us, but at least we are a little closer to life returning to normal.

May is Youth Service Month in Rotary so it was appropriate that we had Anita, our latest exchange student, as our guest speaker last meeting.

On behalf of the Club, the Board has donated \$200 to fund meals for children and families who attend Cocina Mitho Chha (CMC) in Nepal. CMC is a Sustainable Social Enterprise founded to sponsor the education of vulnerable Nepalese children which our Club has supported for several years. Nepal is now in its 6th week of lockdown (expected re-opening date 1 June 2020) and this has had a devastating impact on the thousands of day labourers who have lost their jobs and all means of financial support. The social welfare program at CMC has organised over 700 food hampers to date and the staff and many volunteers are putting themselves at risk to deliver them. You can follow their work on Facebook. <https://www.facebook.com/debendra.pokharel>.

We also decided this month to donate \$500 to Interplast, a Rotary Project to support children from the Asian/Pacific with medical needs. (More information about Interplast can be found on My Rotary or Google) Interplast is also short of funds for its ongoing programs because of Covid19.

May has also seen us confirm with Risdon Vale Primary that we will fund their Green House and Catherine has arranged with the school for an order to be made. When it arrives in July a Club working bee will be arranged to erect it.

A task that needs doing by almost every member of our Club, and can be done during lockdown, is updating member's personal information in My Rotary. Depending on your computer skills, it should be a relatively simple task! Log on to My Rotary and scroll down to My Profile. Consider putting your photo in your file. Rotary International uses the information to follow membership trends like age spread and gender, along with the type of program we have, which is kept up to date by Richard. Trends over time can also be useful for Club planning in the future.

While you are on My Rotary do a bit of exploring and increase your Rotary Knowledge.

I hope you are all able to join us for our Zoom Meeting this Wednesday, 6.45 for 7pm. Highlights will be Peter Morgan's daughter talking about her amazing overseas experiences and then the inductions of Carol Muhling and Nishan Thilakasiri as our newset members.

See you soon,

Mike Patten

Next “Zoom” Meeting - Guest Speaker: Dr Alice Morgan

Alice is the daughter of Peter and Robyn and is currently head of Clinical Psychology at the Royal Children’s Hospital in Melbourne. She will speak of her experiences in Global Health, her time working with MSF in Uganda and current projects she is working on in Afghanistan and Fiji

Please feel free to ask your family and friends to join in the discussion

Time: May 20, 2020 06:45 PM Hobart

“Zoom” Meeting 3 June 2020 - Guest Speaker: Ursula Taylor - CEO Derwent Estuary Program

The Derwent Estuary Program coordinates a range of projects aimed at restoring and promoting the Derwent Estuary. Projects focus on 4 central themes:

- managing human pressures**
- protecting ecosystems**
- enhancing human uses**
- promoting understanding awareness and participation**

THEY SAY THAT LAUGHTER IS THE BEST MEDICINE!

(with thanks to Members of the Club for sharing these via email or on social media)

A teacher asked her class how many of them were Bill Shorten fans.

Not really knowing what a Bill Shorten fan is, but wanting to be liked by the teacher, all the kids raised their hands except for Little Johnny.

The teacher asked Little Johnny why he has decided to be different...again.

Little Johnny said, 'Because I'm not a Bill Shorten fan.'

The teacher asked, 'Why aren't you a Bill Shorten fan?'

Johnny said, 'Because I'm a Liberal.'

The teacher asked him why he's a Liberal.

Little Johnny answered, 'Well, my Mum's a Liberal and my Dad's a Liberal, so I'm a Liberal.'

Annoyed by this answer, the teacher asked, 'If your Mum was a moron and your Dad was an idiot, what would that make you?'

Little Johnny replied, 'A Bill Shorten fan.'

I've spent 2 weeks hanging out with myself and I am so sorry to every person I have ever spent time with.

I went to the liquor store Friday afternoon on my bicycle, bought a bottle of Scotch and put it in the bicycle basket.

As I was about to leave, I thought to myself that if I fell off the bicycle, the bottle would break. So I drank all the Scotch before I cycled home.

It turned out to be a very good decision, because I fell off my bicycle seven times on the way home

I hope they give us a two week notice before sending us back into the world. I think we all need time to become ourselves again. And by "ourselves" I mean lose 10 pounds, cut our hair and get used to not drinking at 9 am.

Four worms were placed in four separate test tubes:

- 1st in beer
- 2nd in wine
- 3rd in whiskey
- 4th in mineral water

The next day, the teacher shows the results:

- The 1st worm in beer, dead.
- The 2nd in wine, dead.
- The 3rd in whiskey, dead.
- The 4th in mineral water, alive and healthy.

The teacher asks the class:

- What do we learn from this experience?

And a child responds:

- Whoever drinks beer, wine and whiskey, does not have worms.

Mrs. Jones got a little too used to watching online worship from home.

Hand Sanitiser Now Available from a RCOL Member!

PATTEX

Pattex Distillery Pty Ltd
ABN – 15 630 500 971
4 Lamb Place, CAMBRIDGE TAS

PO Box 44
LAUDERDALE TAS 7021

HAND SANITISER

Pattex Distillery Pty Ltd has produced *World Health Organisation* formula hand sanitiser.

The product is suitable for all hand sanitising requirements and contains:

- Ethanol (80% v/v)
- Glycerol (1.45% v/v)
- Hydrogen Peroxide (0.125% v/v)
- Distilled Tasmanian Water

The hand sanitiser is produced for bulk requirements (20, 10 and 5 litre drums) and personal refill units of 500ml. Heavy duty trigger spray units containing 500 ml are also available.
